THE PEOPLE'S CANDIDATE.

For Congress,
HON. E. DONNELLY,
Judge 5th Judicial District.
HON. A. G. CHATFIELD,
County Clerk.
For Representative, 21st Dist.
PETER BARTHEL.
For Auditor,
PETER WEGG.

Election.

On next Tuesday the electors of this county will be called upon to vote for Congressman, Judge for 5th Judicial District, County Auditor and Representative.

On the supposition that the electors of this Co. will mostly vote for Donnelly and Chatfield, without regard to party we refrain from further alluding to them.

In regard to Mr. Wegg the candidate for Co. Auditor we will say that he received the unanimous vote of the Democratic County Convention for that position. Mr. Wegg is a man known by every voter of the County, has ever discharged the intricate duties of that office to the entire satisfaction of all. We hope that no democrat will throw his vote away on independent candidates but support the regular nominees.

We are sorry to hear that there is some dissatisfaction in certain localities in regard to our nominee as Representative Peter Barthel, why it should be we have been unable to ascertain, he is one of our best farmers—honest and capable, always has discharged the duties of various town offices which the citizens of his town have elected him to, with the utmost fidelity, likewise the intricate and responsible duties of County Commissioner. It would be a misfortune to send a man to St. Paul next winter from Carver County who would vote for Winford for United States Senator. Democrats see to it that such a misfortune does not befall us.

Dr. Bray is too much of a democrat to allow his name to be used to elect a Republican and desires that no democrat throw his vote away by voting for himself this fall.

Brigham Young said, in a discourse at Salt Lake: "We know that there are a great many who depend upon a moral life for future happiness and joy, believing that will prove satisfactory. I can tell you I would rather have the practice of a good moral religion without any faith at all in a Supreme Being, than to have faith in a Supreme Being without any moral good action, and a life filled with vice, sin and iniquity."

A singular fatality occurred in England recently. A fly, after having been upon recently dyed paper, alighted upon a lady's nose, upon a spot where there had been a slight scratch, leaving a fresh open wound. The wound almost immediately became inflamed, and in a short time the whole system was affected and the lady died in twenty-four hours.

It is stated on what seems good authority, that the chances of an "air line" railroad from New York to Washington are considered so good at the coming session of Congress, that a route is already surveyed across New Jersey, and a portion of the road is in process of construction. It is intended for transportation of mails and passengers direct, with no way business to cause delays.

The loss of Metz and along with it the French army under Bazaine, is becoming evident, amounts to a calamity greater even than that of Sedan. Comprising the choicest troops of the French regular army, and in possession of an amount of material perfectly amazing to think of, 800,000 chesapeake as reported, the best officers in the whole service have also become prisoners of war, causing a loss of military leaders such as must be severely felt in future battles. All this to say nothing of one of the strongest of all the fortified cities of France.

An Illinois paper regularly appears in columns, which are headed "The Column of Merchants who..."

EUROPEAN WAR.

LONDON, Oct. 31.—The States of Germany, northern and southern are said to have agreed upon the name of King William as Emperor.

BERLIN, Oct. 31.—The King telegraphs to the Queen: "Versailles, Oct. 29.—The defeat of the two hostile armies which recently marched against us, warrants me in conferring on our two commanders, Fritz and Frederick Charles, the batons of Field Marshals, the first instances of such appointments in our family history." (Signed) WILLIAM.

THE GERMAN FORCE IN FRANCE. LONDON, Oct. 31.—A dispatch yesterday says Prussia and the North German Confederation furnished 740,000 troops for the recent war, and the States of South Germany 110,000. Nearly all are now on French soil. They are expected to complete the conquest of France in a short winter campaign.

BERLIN, Oct. 31.—A report is current here that yesterday, at Versailles, an attempt was made on the life of King William. The King was unhurt, but a general who stood near him was wounded. Lord Granville's proposition was for an armistice to enable elections to be held only, and does not involve peace. The Paris government does not desire an election, but the Prussian government will require one if an armistice is expected. It will not be granted for any other purpose.

LONDON, Oct. 31.—To-morrow being settlement day at the Bank of England the Exchange will not be open for business. There will be a public sale of stocks and securities.

LONDON, Oct. 31.—The Germans around Paris are holding solemn religious services to-day. The bombardment of the city commenced to-morrow.

A meeting of the Manchester Chamber of Commerce, to-day, the chairman said the continuance of the war, which he hoped would end by brought to an end by the efforts of their mission to Versailles, would certainly result in peace. As a compensation for the ills suffered in consequence of the war by England, there was an influx of American visitors, who would otherwise be traveling on the continent. There had also been an increase in business orders, while at the same time cotton was declining. He advocated a petition against the entry monopoly.

A dispatch yesterday states that Prussia and the North German Confederation furnished 740,000 troops for the recent war, and the States of South Germany 110,000. Nearly all are now on French soil. They are expected to complete the conquest of France in a short winter campaign.

LONDON, Oct. 30.—The persecution of Christians has been revived in Damascus, and to great is the irritation of the natives against them that a general massacre is feared.

THE KING'S LETTER TO PRINCE FREDERICK CHARLES. LONDON, Nov. 1.—A Herald correspondent, with the second army corps, transmits the following, which has just been read to the troops:

VERSAILLES, Oct. 28. To Prince Frederick Charles. I awaited the news, which was received during the night, of the complete capitulation of Metz before sending you my hearty congratulations, and acknowledgments for your circumspection and the endurance before victory which your command has shown during one long and tedious environment of Bazaine's army. The same acknowledgment is due to the brave troops who, by their fortitude, and the privations they have endured, have set examples without parallel in the history of the world. The occurrences before Metz constitute an imperishable epoch of honor and glory for your army. My thanks should at once be conveyed to the troops, and to honor you and your command for such signal services. I have appointed you general field marshal, a station which I have also conferred upon my son, the Crown Prince.

[Signed.] WILHELM. Strength of the Bombardment.

LONDON, Nov. 1.—The Germans will open the bombardment of Paris with 250 siege guns.

BAZAINE'S JUSTIFICATION. BAZAINE's order of the day announcing the capitulation of Metz is published. It justifies the act and exhorts the troops to submission. Admiral Fauriel refuses to sign any paper censuring Bazaine.

Marshal Vaillant has been expelled from France.

Alexandre Dumas is recovering. Advice from Boha to Oct. 10 state that a French gusboat had captured the German bark Niemann and Ulma.

AN ORLEANSIST ARMY. The Electeur Liberte prints a speech made by Fure, on the 24th, saying that the Orleans Princes have an army of 150,000 in the west.

TOURS, Oct. 31.—The journals to-day announce that should the Prussians succeed in cutting off railroad communications with the north French vessel of war, they will prey on the mails between Paris and England.

Nov. 31.—The Prussians continue the siege of Paris, longingly, reckoning on starving out the garrison, whose supplies are beginning to fail.

RAIL ROAD DAMAGES.

We understand that the commissioners appointed to appraise the damage for right of way of the Minneapolis and St. Louis Rail Road, have made their report and filed the same in the clerk of Court office, and the company have deposited the amount with Fred Greiner Register of Deeds, upon whom the parties will call for the amount so found as damages, and if accepted by them will execute a deed to the company for the land taken. If the parties conclude not to accept the amount of the damages found by commissioners it will be necessary for them to appeal to the District Court.

THE EXAMINATION.—Of Fred Hecklin Jr. for assault with intent to kill Peter Wentzel has been going on for the past two days before Justice Hiss and Barreau. As we go to press the Justice have not rendered their decision.

The new Catholic Church is now nearly enclosed. It is an ornament to the village.

We see that repairs are now going on, at the Moravian Church.

We were pained to hear of the somewhat sudden death from Typhoid fever of Mr. Manter, who has resided in our village for a few months. He was recently from the State of Maine, and was much respected by all his acquaintances in this place. His funeral took place at the Moravian Church on Tuesday.

APPLES.—Ferd. This has just received 50 barrels of choice Wm. apples, which he will sell cheap for cash by the barrel.

THANKSGIVING.—The National Thanksgiving Day has been designated by the President on the 24th—last Thursday in November, the traditional orthodox day among New Englanders.

The People's Literary Companion, for November, comes to us as bright and as fresh looking as the green fields after a gentle rain. It is published by E. C. Allen & Co., Augusta, Maine. Terms 75 cents a year. A fine steel engraving, entitled "From Shore to Shore," is presented to every new subscriber.

—New style of neck-ties and collars just received at Henry Young's.

RAIL ROAD.—The work on the Rail Road is progressing finely.

—Remember the election on next Tuesday, the 8th of November, let every voter be at the polls.

The readers of the Herald will please excuse us for not having our regular amount of local news, as we have been busy printing election tickets.

On the night of the 19th inst. the steamship Cambria, with 180 souls on board, was totally wrecked off the cape of Donnegal on the Irish coast, by striking upon Mistrall Island, where all on board are supposed to have perished, except one strange passenger by the name of McGarrigle. He was picked up in an open boat. Several other small boats put off from the wreck, loaded with passengers and have not since been heard from. The wind was blowing almost a hurricane at the time of the disaster.

"Barrett's Hair Restorative." Who has not tried "Barrett's"? Nature assisted by "Barrett's." No hair man can beat "Barrett's." "Barrett's," needs no puffing.

CHASKA MARKET.—We give below the market prices at Chaska, at the time of going to press.

Wheat 75 cts. per bushel.
Barley 55 cts. per bushel.
Corn 45 cts. per bushel.
Oats 35 cts. per bushel.
Potatoes 80 to 85 cts.

—We are informed that Jorgenson a distinguished citizen of Shakopee is canvassing the 8th Judicial District for his old friend Judge Brown.

TEACHER'S INSTITUTE.

Tuesday's session. Reported by Mr. E. S. Brown. Opened by Singing, and reports of previous sessions. The audience, which consisted of a very respectable number of both teachers and citizens, then listened to the very able and practicable Lecture from Supt. Wilson, a few points of which I will mention. He first congratulated the citizens of Chaska upon their thrifty and beautiful

ful village, then spoke of the educational advantages which our state possesses. Normal Schools, Liberal endowments for educational purposes second to no other state, appropriations for the holding of Institutes &c. &c. He endeavored to impress upon the mind of teachers the responsibilities which rest upon them, being more momentous than even those of Clergymen. The subject of corporal punishment next came up which he recommended as proper to be used only as a last resort by the physician, and not by the teacher. He showed the importance of home training, and truthfully said that a child properly governed at home is easily controlled at school, impressions formed in youth are lasting as time itself.

He then urged upon teachers the importance of Qualification, instructing them that teachers can improve their standing and grade by self culture at home and that all labor commends its just remuneration, that teachers rise in proportion to their ability. Poor teaching keeps poor pay, and good teaching keeps good pay, giving them the negro teacher, who when told that his pay was poor said that "the preach was also poor." Good teachers are always in demand and command good salaries.

Qualifications as a teachers stock in trade and he should labor continually both in and out of school to increase his capital, referring us to the Lawyer, Engineer and Physician as examples, excellence is only obtained by hard labor, and he who sows may reap. He told us that all lessons should be carefully prepared by the teacher, thus obtaining their full benefit, and books unnecessary at the close. He presented the subject of order in the school room which is the foundation of a good school, and that without order a school is worthless, although the teacher may possess extensive book knowledge, also informing us that the best method of keeping order is to be orderly ourselves.

He next mentioned the powerful effects of habit which when once formed firmly retains its grasp and is shaken off with difficulty, next address your schoolroom with pictures, flowers &c., thus rendering it pleasant, as pleasant school rooms make pleasant scholars.

The next subject mentioned was want of punctuality which is the great bane and drawback of school management, instructing us in the best methods of causing scholars to be punctual.

Go among the parents not with pompousness, thus obtaining their full benefit, and books unnecessary at the close.
